

# The Vegepa for ME Scheme

---

Thanks to an almost ceaseless campaign by Lynne Kersh (full time Carer of 24 year old daughter with ME) in organising The Scheme, we can

**now buy Vegepa at only £8.50** per pot (RRP price £11.95)

and what's more,

**p&p is free to mainland UK** (£3 to EU, £5 to the rest of world)

## PLUS

**This price includes a donation of 50p per pot biomedical research into ME**

So not only will we be directly funding crucial high-quality Biomedical Research into the causes, consequences and treatment of ME but, at the same time, we'll be personally benefiting by getting the clinical-grade, patented Omega supplement Vegepa and all its sister products, straight from the manufacturer Igennus at hugely reduced prices!

### WHAT IS Vegepa?

Lynne, founder of The Vegepa for ME Scheme explains:- "Vegepa is the patented, unique, clinical-grade omega supplement which was recently the basis of highly successful trials at London's Hammersmith Hospital under pioneering, world renowned Prof. Basant Puri who formulated the supplement.

Vegepa is the subject of his acclaimed book A Natural Way to Treat ME (order online for a discounted copy).

Vegepa is unique in that its EPA is derived from ultra-purified fish oil by using a molecular distillation process which removes all unwanted impurities, including DHA, as replicated studies have demonstrated that DHA in supplement form inhibits the beneficial effects of EPA. VegEPA's EPO is derived from the cold-pressing of evening primrose seeds and is therefore unprocessed and unrefined"

## Come join The Scheme!

**The VegEPA for ME Scheme** has grown so large and so fast (after only 9 months The Scheme boasted 800 members and had raised well over £3,500 for biomedical

Research into ME!!) that the next logical step was to have our own website at <http://www.thevegepaformescheme.com>

So now you'll be able to:-

- securely order your VegEPA products via World Pay
- find out the latest news about your donations to biomedical research into
- find answers to any questions you may have about your supplements
